Fort Atkinson Police Department Landscaping Project -

The flower beds surrounding the north and east side of the Fort Atkinson Police Department are watered and cared for by 2 MGs.

The beds were seeded and planted with donated plants, permanent soaker hoses were installed, existing landscaping was rehabilitated by dividing and replanting perennials from overgrown beds..

Among the new plants added this year were 150 hybrid daylilies donated by the Roger and Sandra Anderson and a variety of perennials and self-seeding annuals donated by members of the Jefferson County Master Gardener Club.
