

HOW TO...

Support Your Club's Project Leaders

Make the project leaders aware of available resources:

- ~ National 4-H literature is available for most projects at <http://www.4-hmall.org/>. Most projects have several levels of literature for members plus a helper's guide.
- ~ The Wisconsin state 4-H website has project pages for many projects. Go to <http://www.uwex.edu/ces/4h/onlinpro/index.cfm>. Some project pages include lesson plans for those projects.
- ~ Some projects have countywide meetings and resource leaders. Refer to the list on the back of this tip sheet.

Provide time during club meetings for project leaders to...:

- ~ ...make announcements about past project activities and upcoming project meetings, which should be educational, face-to-face meetings.
- ~ ...connect with project members to plan meetings and/or check individual progress.
- ~ ...meet with more experienced project leaders to share ideas, resources and meeting plans.

Be aware of the difference between resource leaders and fair superintendents:

- ~ Resource leaders for projects (listed on the back of this tip sheet) are available to answer questions about educational project work throughout the 4-H year.
- ~ Fair superintendents (listed in the fair premium book) are resources for questions about fair exhibits only.
- ~ Sometimes a project resource leader and a fair superintendent are the same person!

THE BOTTOM LINE

Projects are important vehicles for teaching youth valuable life skills.

You can facilitate making connections between project members & leaders.

Make every attempt to keep club members informed of project opportunities at the county level.
