MEMORANDUM OF UNDERSTANDING
BETWEEN
THE U.S. DEPARTMENT OF LABOR
OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION
AND
EMPLOYMENT STANDARDS ADMINISTRATION
WAGE AND HOUR DIVISION

I. Purpose:
The purpose of this agreement is to set forth the working relationship between the U.S. Department of Labor’s Occupational Safety and Health Administration (OSHA) and the Wage and Hour Division of the Employment Standards Administration (ESA) to protect the health and well-being of the nation’s workforce, and to establish a complaint/referral system between the two agencies which will provide for a coordinated enforcement effort, thereby securing the highest level of compliance with the Occupational Safety and Health Act and the various Federal wage and hour laws, including the Fair Labor Standards Act; the Migrant and Seasonal Agricultural Worker Protection Act; and the Migrant and Seasonal Agricultural Worker Protection Act.

Child Labor Laws
State Consultation Service

1-800-947-0553

- Provided at no cost to employers
- Developed for smaller employers with more hazardous operations
- Delivered by WiSCon or the State Laboratory of Hygiene
- No penalties are proposed or citations issued
- Possible violations of OSHA standards are not reported to OSHA enforcement staff unless employer fails to eliminate or control any serious hazard or imminent danger
UW Center for Agricultural Safety and Health

Authorized in May 1994 by Wisconsin Act 455 to respond to the agricultural safety and health needs of the farming community, the University of Wisconsin Center for Agricultural Safety and Health is funded primarily through Cooperative Extension within the University of Wisconsin-Extension (UWEX) and is a joint effort of UWEX and the Department of Biological Systems Engineering, College of Agricultural and Life Sciences, University of Wisconsin-Madison.

Cheryl Skjolaas, Agricultural Safety and Health Specialist has worked in the agricultural safety and health field since December, 1990. She develops and delivers safety and health programs in cooperation with the UW Cooperative Extension network of county based agents and educator.

You may contact Cheryl by phone 608-265-0568

Technical College Services

Customized Training, Seminars & Continuing Education
Established in 1981 in response to occupational health problems seen in farm patients coming to Marshfield Clinic, the National Farm Medicine Center has focused on evolving issues in agricultural health and safety encompassing behavioral, laboratory and clinical research. Since 1997, the National Children’s Center for Rural and Agricultural Health and Safety within the National Farm Medicine Center has been one of eight Centers for Agricultural Disease and Injury Research, Education and Prevention funded by the National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention.

DAIRY FARM SAFETY GRANT

The University of Wisconsin-River Falls has received a Susan Harwood Training Grant from the Occupational and Safety Health Administration (OSHA) to establish the Center for Dairy Farm Safety (CDFS). The CDFS will be developed and managed in collaboration with the UW-Center for Agricultural Safety and Health.
GOALS

• The goal of the CDFS is to develop best practice protocols for dairy operation occupational safety and health (OSH) programs.
• Provide training starting spring 2012 to producers and farm managers using protocols to develop their OSH programs.
• Design a website as a resource: www.uwrf.edu/CenterForDairyFarmSafety/

NEEDS ASSESSMENT

• What information would be helpful to your dairy operation as you build your health and safety program?
• Please complete the CDFS Needs Assessment that will be available in February, 2012.
• For more information contact: Connie Smith, UWRF, 715-425-3344
