

# Anticipated 2014 Lower Menominee River Milestones

A.K.A. What to tell your friends, families, neighbors, and others when they ask what's going on with the river this year

# Milestones

- ▶ Complete Menekaunee Harbor Dredging
  - ▶ Tyco/U.S.EPA Betterment Agreement
  - ▶ Begin Rio Vista Slough Sediment Investigation
  - ▶ Begin Fish Passage Project Construction
  - ▶ Receive Lower Scott Flowage Sediment Sampling Results
  - ▶ Progress on
    - Fisheries Data Roundup
    - Fish Consumption Advisory Assessment
    - Island Rookery Habitat Restoration
    - South Channel Habitat Planning
- 

# What to Tell Your Friends

- ▶ Cleanup will be completed at two more contaminated sediment sites through public/private, state/local partnerships
  - ▶ A massive undertaking to restore sturgeon populations in Lake Michigan is happening right in our backyard
  - ▶ We're doing our best to make sure that all sediment contamination in the river is addressed
  - ▶ Habitat for fish, birds, and other wildlife is being improved and protected at sites local residents helped to select
- 

# 2014 Citizen Advisory Committee Activities

Because this group does much more than  
just attend meetings!
