

Soil Type	Approx. Fc (%)	Approx. PWP (%)	Interpolation Equation	% Silt	% Clay
Silty Clay	39	25	$VWC (\%) = 47.79 (\text{Soil Suction})^{-0.222}$	45	45
Clay	40	27	$VWC (\%) = 63.20 (\text{Soil Suction})^{-0.132}$	20	60

Note: Soil suction is in kilopascals (kPa) which is equal to Centibars (cb).
