

Soil Type	Approx. Fc (%)	Approx. PWP (%)	Interpolation Equation	% Silt	% Clay
Sand	9	3	$VWC (\%) = 28.76 (\text{Soil Suction})^{-0.588}$	5	3
Loamy Sand	13	6	$VWC (\%) = 34.45 (\text{Soil Suction})^{-0.476}$	12	7
Sandy Loam	21	10	$VWC (\%) = 49.89 (\text{Soil Suction})^{-0.323}$	25	10

Note: Soil suction is in kilopascals (kPa) which is equal to Centibars (cb).
