

ECONOMIC SNAPSHOT

According to the 2000 U.S. Census, more than two-thirds (69 percent) of all people older than 16 living in the city of Madison were employed or seeking employment. And more than 80 percent of the women age 25 to 44 living in Madison were employed or seeking employment.

Comparable data for every community in the state is available on the UW-Extension Center for Community Economic Development Web site at: www.uwex.edu/ces/cced/indicate.html. Questions or comments are welcome at: bill.pinkovitz@uwex.edu

Working women

The percentage of women age 25-44 working in the United States has doubled since 1950.

Percentage of women in the labor force with children aged five or more:
