

Hay Market Demand and Price Report for the Upper Midwest For December 9, 2019

Data Compiled by [Richard Halopka](#) Senior Outreach Specialist
Clark County Extension
Crops & Soils Agent

All hay prices quoted are dollars per ton FOB point of origin for alfalfa hay unless otherwise noted.

The information presented in this report is compiled from public and private quality tested sales and reports in the Midwest.

The past several months of hay reports are archived and you may view previous hay reports, go to <http://fyi.uwex.edu/forage/> on the Team Forage web site and click on the [past hay reports](#) section.

Hay auction data is collected on the first and third week of the month and posted the following Monday when possible. Prices quoted in this report are for “as fed” alfalfa hay.

Demand and Sales Comments

Hay prices continue to be on a steady to strong trend. There is demand for high quality hay with a limited supply. Lower quality discounts are greater than in past depending on condition and moisture of hay. If you are in need of forage or have forage for sell connect to the Farmer-to-Farmer webpage at <http://farmertofarmer.uwex.edu/>. You may contact your local county agriculture educator if you need help placing an ad. There is no charge for the service.

Straw prices are for oat, barley, or wheat straw. Prices were steady for straw. Small square bales averaged \$4.83 a bale (range of \$3.00 to \$6.00). Large square bale straw averaged \$64.00 per bale (a range of \$35.00 to \$95.00). Large round bale straw averaged \$55.00 per bale (a range of \$27.00 - \$70.00).

In Nebraska, hay sold steady, demand was moderate. With snow and melting snow in the state people are calling on hay supply, but many are on the fence if to buy. *In Iowa*, quality hay is selling for top prices. Lower quality hay is discounted.

In South Dakota, prices are steady on alfalfa hay with good demand for quality hay. Other hay types speaking grass hay or mixed grass/legume has less demand.

In Missouri, good hay supply in the state. Hay demand is light; prices are steady. A good supply of fair quality hay, while top quality hay is a bit harder to find.

In Southwest Minnesota, prices were steady, with a slow to moderate demand. *In Kansas*, hay trade is slow. Prices remain steady with slow to moderate demand.

In Wisconsin, prices remain strong for top quality hay. Quality hay supplies remain tight with a good supply of lower quality hay. Very busy week at the auction.

The next Hay Market Demand and Price Report for the Upper Midwest will be posted on Monday, December 23, 2019, yes, that is Christmas week.
