**UW-Madison Division of Extension Clark County
Crops & Soils Educator**

All hay prices quoted are dollars per ton FOB point of origin for alfalfa hay unless otherwise noted.

The information presented in this report is compiled from public and private quality tested sales and reports in the Midwest.

The past several months of hay reports are archived and you may view previous hay reports, go to <http://fyi.uwex.edu/forage/> on the Team Forage web site and click on the [past hay reports](#) section.

Hay auction data is collected on the first and third week of the month and posted by or before Tuesday. Prices quoted in this report are for “as fed” alfalfa hay.

Demand and Sales Comments

Cold temperatures have set in the Midwest over the weekend; this may have an impact on hay markets in the next few weeks. With cold temperatures cattlemen may need purchase forages to supplement livestock. The hay market remains steady this week. If you need forage or have forage to sell or straw, connect to the Farmer-to-Farmer webpage at <http://farmertofarmer.uwex.edu/>. You may contact your local county agriculture educator if you need help placing an ad. There is no charge for the service.

Straw prices are for oat, barley, or wheat straw. Straw prices remain steady with limited supply at the market. Small square bales averaged \$4.25 a bale (range of \$3.00 to \$6.00). Large square bale straw averaged \$41.00 per bale (a range of \$20.00 to \$75.00). Large round bale straw averaged \$36.00 per bale (a range of \$20.00 - \$75.00).

In Nebraska, hay sales were steady with good demand. Snow and arctic temperatures will have many cattlemen supplementing livestock to stay warm in the harsh weather. ***In Iowa***, supply is good, demand is steady, and prices are steady.

In South Dakota, alfalfa and grass hay prices are steady with few reported sales. Demand was moderate with best demand for dairy quality hay moving out of state.

In Missouri, supply is moderate, demand is moderate and prices remain steady. A number of farmers may list supply of hay as they believe they will have a surplus moving toward spring.

In Southwest Minnesota, prices were steady with a supply of lower quality hay at the market. ***In Kansas***, market prices were steady for all classes of hay on a limited test. Greatest demand is for dairy quality alfalfa.

In Wisconsin, prices are steady for dairy quality hay. Other classes of hay are at mercy of the buyers at the auction.

The next Hay Market Demand and Price Report for the Upper Midwest will be posted by Tuesday, February 23, 2021.
