

ESP/UWEX International Committee
Meeting Notes
March 4, 2005

Present: Mary Crave; JoAnn Hinz; Arlen Albrecht; Marty Havlovic; Tom Cadwallader; Faden Fulleylove-Krause; and John Preissing.

1. Trip Reports: Marty reported on a meeting with the Land O' Lakes representative on their programming. They are working with an African training project including organizational development, business development, civic engagement, dairy improvement. It was noted by Faden that Ethiopian work related trips were possible. Marty said he did not know whether CNFA had contacted Hans Hanson yet for a possible program to Eastern Europe. Mary shared that a group will be going to Mexico over the summer with trainings happening in advance.

2. Action Planning Results: John noted that the plan would be on line soon (it has since been posted). This will be worked on for the next several sessions. Marty recommended considering a summer action planning day.

3. Website Review: One recommendation was that John send out monthly reminders of opportunities and to check our website for them.

4. JCEP Conference: The group agreed that Marty, Faden, and John would prepare the program. See the website for the annual report and powerpoint presentation. For the conference.

5. Future Plans: Upcoming possible projects with Kenyan and Mexico were discussed. Extension's role could be two fold – providing expertise in the field and hosting training and visit programs to Wisconsin.
