

Farmstead Rewiring

Course # 47-413-403

**Medford October 27 & 29 November 3, 5, 10, & 12
6:00pm – 9:00pm // Room M123**

Course Description:

This 18-hour course is for rural electricians (or their employees) who do farm wiring and rewiring as a part of their existing business. The primary emphasis is on safety and efficient use of electrical energy. The content is applicable to any farming operation but the focus is primarily on dairy operations. The course is designed to cover the unique challenges of working on farms and around animals, review electrical fundamentals, applicable state and national electrical codes, 3 and 4 wire systems, bonding and grounding, installation of lighting and equipment, planning the work and development of a rewiring proposal.

Course Fee:

\$250.00 This includes all materials.

Continuing Education Units:

Wisconsin Dept. of Commerce has authorized 18 hours of CEU for Journey and Master electrician continuing education credit.
