– Presented by:

Objectives

1. One
2. Two
3. Three
4. Four

INSERT CONTENT SLIDES

See next four slides for an example of slide and presenter notes from the 2013 e-Forum.

Consider how your content could be displayed in a visually interesting way: use SmartArt, graphics, and pictures. Try to keep bullets and words to a minimum.

Be sure to put your instructions to the host in **BOLD** and *Italics* (e.g., ***switch to POLL POD #1, include items X,Y,Z.***)

Assign your slides to a presenter. Try to do about 4-6 sentences per slide... this will help keep it interesting.

Remember Fun?

Reflect back to a learning experience in your childhood that you enjoyed:

- What made it enjoyable?
- Were you actively involved or listening and watching others?
- Was there a teacher or leader? What was he/she like?
- In what way was it different from other, less enjoyable learning experiences?

Who were the Power Users?

Connection to Staff

Definition of Technology

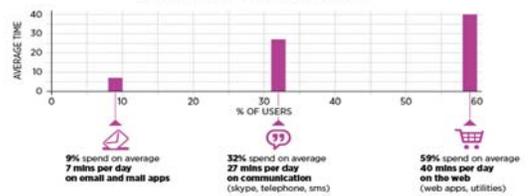

The use of science in industry, engineering, etc. to invent **useful things** or **solve problems...**

A **machine**, piece of **equipment**, **method**, etc., that is created by technology...
