

ROBOTICS PROJECT RECORD

I completed:	Unit 1	Name of Project Book: _____
		Activities I completed: (Letters) _____
	Unit 2	Name of Project Book: _____
		Activities I completed: (Letters) _____
	Unit 3	Name of Project Book: _____
		Activities I completed: (Letters) _____

Write a paragraph (4 to 6 sentences) about one or two activities you completed in any of the project books. Describe what you did and learned from the activity. (You may also include any finished activity pages from your Junk Drawer Youth Robotics Notebook following this page.)

List the different types of robots that you made during this project this year:

Knowledge and Skills

What specific knowledge and skills did you learn in your project? Include what you learned from mistakes. How can you use what you have learned in your life?

Check all that you did in your project this year. Write a summary sentence about the ones you checked.

Attended robotic project meetings and learned about the NXT robot.

Checked the robot out at the UW-Extension Office & taught myself how to build & program the NXT robot.

I read an article online about robotics.

I documented my project by taking pictures of what I accomplished throughout the year.

I learned how to use the robotic software and save the programs that I wrote to a flash drive.

I drew some various designs of robots.

I know what S.T.E.M. stands for.

List three places in our every day lives robots are used and explain how they are used.

Add anything not covered above that you accomplished this year within the Robotics Project.

If you need more room for any area you may add an extra sheet. You may enhance your project record by adding a story, pictures with captions and/or newspaper clippings.
