See back side for directions and more details about the numbered locations on the map below.

Canoe Routes DESCRIPTION Fox River, Menomonee Falls to Waukesha. Put in at CTH Y in the Village of Menomonee Falls to begin this challenging, approximately ten-mile route. The river flows through Waunakee Golf Course which contains numerous portages around golf cart paths. The next stretch consists of wooded wetlands, slow current, very scenic. Spring Creek enters from the west. Downstream of North Ave. the river becomes narrow and heavily wooded with many snags and obstructions. The stream becomes significant larger below the influence of Poplar Creek. Downstream of Watertown Plank Rd. it opens up and becomes a wider, deeper, larger river. Pewaukee River enters from the west and the river continues as a long, straight, slow moving channel until you reach the take-out point at Frame Park upstream of the dam. Takes four to five hours. Pewaukee River, Pewaukee to Waukesha. Put in at the Pewaukee Village Hall at 235 Hickory St. in downtown Pewaukee. After leaving the village, the river slowly meanders through wetlands that provide excellent wildlife viewing opportunities. Take out at Frame Park in the City of Waukesha. Extremely low water will make passage in some areas difficult. High water may make the I-94 bridge impassable and pose a challenge at a rocky chute at the private bridge just upstream of the Hwy 164 bridge. This trip is approximately 6 miles and takes about two hours. Fox River Parkway. Put in at Bethesda Park, off of College Avenue in the City of Waukesha. This is an easy, two-mile canoe stretch with a slow to moderate current and no obstructions. Take out at the improved canoe launch just upstream of Hwy 59. Takes about two hours. Fox River, Hwy 59 to Vernon Marsh. Put in at the canoe launch just upstream of Hwy 59. This is an approximately five-mile trip with few obstacles. The first half of the trip consists of residential development, while the remainder is characterized by heavily wooded areas providing wildlife viewing opportunities. Take out at the CTH I bridge five miles south of Waukesha. Takes two to three hours. Fox River, Vernon Marsh. Put in at the CTH I Bridge five miles south of Waukesha. This route is about six miles to the take-out at the CTH IS bridge (two miles east of Mukwonago). Floating through Vernon State Wildlife Area will bring many opportunities to observe a variety of wildlife. This will be a slow, quiet ride as the current is mild adding to your viewing pleasure. Takes about two hours. Mukwonago River, Phantom to Fox River. Put in at CTH ES, just east of Phantom Lake. A moderate current will take you approximately two miles on one of the area's most exceptional natural resources, the Mukwonago River. The route then enters the Fox River, where you can take out at CTH ES, east of Mukwonago, or continue on with canoe route #7 to Big Bend. Takes about 3 hours. Fox River, Mukwonago to Big Bend. Put in at the CTH ES bridge east of Mukwonago. The route to the take-out at the Village Park boat landing in Big Bend is about sever miles. The Mukwonago River enters the Fox River from the right side about a mile into the trip. An alternate take-out/put-in at the Center Road bridge will shorten your trip by half. This section of river has a light current with many turns and some deeper holes. Full distance takes two-and-one-half hours. Fox River, Big Bend to Tichigan Lake. This trip from the Village Park boat landing in Big Bend to Tichigan Lake is a seven-mile route. Numerous backwater sloughs occur in this section of the river. Take the deeper left channel around the island just before the Bridge Road bridge. Take-out is just down stream from the bridge (right side) at the Tichigan State Wildlife Area. The wildlife area has plenty of parking and nature trails for you to explore. Takes two-and-one-half hours Mukwonago River, Beulah Road to County Hwy I. The Beulah Road put-in is located five miles west of Mukwonago just south of Hwy LO on Beulah Road. This is a
