

MONEY AND YOUR VALUES

How you spend and receive money is a large part of living in a way that is consistent with your values, beliefs, and priorities. List five of your values (i.e., being honest or caring for others) and give examples of how you can act on those values through your earnings, savings, giving, and spending.

Value: *I care about animals and animal rights*

Earning: *Work for a humane society that cares for animals in need.*

Saving: *Save money so I can adopt a pet from an animal shelter.*

Giving: *Donate money to an organization that works towards preserving natural habitats.*

Spending: *I will not buy clothing or accessories made from animals.*
