Water Outreach Education
Facilitating Access to Resources and Best Education Practices

I need to develop an education program or outreach strategy to tackle a specific water use or management problem. Solving the problem requires...

Tree 1d – Additional information or help in accessing solution options

[NOTE – The flow chart provides an abbreviated version of Decision Tree contents]

There is adequate information to develop a solution to the problem.	The target audience does not know about the information or doesn't understand it.	Present data to engage or train the audience in analyzing implications and developing solutions.
	The target audience knows about the information, but does not apply information when assessing solution options.	Engage the target audience in analyzing implications and developing solutions.

Information to solve the problem is missing or not adequate.	Clarify what information is missing. Identify sources. Provide training to create or access information.
