Course Information

Divisions/Moving Up in classes

- **Division A** - In this division, neither the dog nor handler has previously achieved a qualifying score in 4-H agility or another agility venue. In addition, neither the handler nor the dog has previously achieved a title in another agility Venue.
- **Division B** - This division is designed for those where either the dog or handler have achieved a qualifying score in 4-H agility or another venue OR for those situations where either the handler or the dog has earned an agility title in another venue. Receiving a qualifying score in either JTT or Standard means that the dog/handler team should be entered in Division B in both JTT and Standard in future competitions.
- When exhibitors move to Standard Agility, (by demonstrating the ability to complete contact obstacles and weaves successfully as determined by a county Dog Project Leader), they will be able to compete in JTT and Standard Agility classes at a single event with the same dog.

General Course Information

1. Course runs past the allotted time, penalties will be assessed as described in the scoring section of these guidelines
2. The flooring for the course is turf
3. The course will be clearly marked with a start/finish line.
4. Each obstacle will be marked with a number. Handlers and dogs will be required to follow the course in numerical order.
5. Before competition begins, the handlers will be allowed to walk through the course to become familiar with the course. The walk through is restricted to the handlers only and is limited to 10 minutes.
6. In Standard Agility, a period of time (determined by the judge) will be allowed for obstacle familiarization for dogs and handlers on the contact pieces ONLY.
7. A warm-up jump outside of the ring will be available for handlers and dogs. Handlers should be considerate of others in taking turns at the warm-up jump.
8. Food and toys are not permitted on the course.
9. Handlers are not permitted to have whistles, stopwatches, fanny packs or other training devices on the course.
10. The handlers may be on either side of the dog while running the course.
11. A dog's time starts whenever any part of the dog crosses the start line. Time will end when any part of

the dog crosses the finish line.

12. The contact zone on the A-frame, dog walk and teeter is the contrasting colored zone (usually yellow) on the start and end of each obstacle.
13. Any dog that commits to a contact obstacle (A-frame, dog walk, teeter) with all four paws must, for safety reasons, continue with the obstacle. Whether obstacle is completed or if the dog jumps off, dog and handler must go on to the next obstacle and may not attempt that obstacle again.

7. Failure to follow judge's verbal instructions is a penalty.
8. Refusals or run-by's will not be faulted in 4-H competition.
9. The only penalty for breaking a sit or a down on the pause table is the extra time that accumulates

when the count stops, and is not resumed, until the dog is back in position.

11. If a handler loses control of their dog while on the course, it will be considered a penalty.

Obstacle Descriptions:

**ALL EQUIPMENT AT THIS SHOW SITE IS AKC APPROVED AND IS RUBBERIZED
(THIS IS A TEACHING AND TRAINING FACILITY)**

- **A-Frame:** Dogs must go up one side touching the contact zone on the up side with any part of one foot and down the other side in the direction designated by the judge. The dog must also touch the contact zone on the down side with any part of one foot prior to exiting the obstacle. The height of the A-frame at the apex will be no higher than 4'6". A-Frame has slats.
- **Dog Walk:** Dogs must go up the ramp touching the up contact zone with any part of one foot, cross the center section and go down the down ramp touching any part of one foot in the down contact zone prior to exiting the obstacle. Dog walk has slats.
- **Teeter:** Dogs must go up the plank touching the up contact zone with any part of one foot and cause the plank to pivot. At least one foot must touch the down contact zone after the plank has touched the ground and prior to exiting the obstacle. (Handlers may slow the plank down so it doesn't scare the dog).
- **Weave Poles:** The dogs must enter the weave poles by passing between poles # 1 and #2 from right to left. They must continue this sequence until they pass the last two poles. The dog's left shoulder must enter on the right of the 1st pole. *****Handler is not allowed to guide the dog through the poles with the leash.**

- **Pause Table:** The dogs must pause on the table for 5 seconds in either a sit or a down position, as specified by the judge at the beginning of the competition. The judge will do an oral count and will also give a signal to —GO. If the dog breaks from the sit or down position the judge will stop counting and will only continue the count when the dog returns to the proper position. When the judge says, —Go, the handler may then release the dog and proceed.
- **Open Tunnel:** The dogs must enter the end specified by the judge and exit the other end.
- **Bar Jumps:** The dogs must jump over the top bar, without displacing it, in the direction indicated by the judge.
- **Panel Jump:** The dog must jump over the top panel without displacing it, in the direction indicated by the judge.
- **Tire Jump:** The dogs must jump through the tire opening in the direction indicated by the judge, without knocking the tire/frame over.
- **Double Jump:** The dog must jump over two bars, without displacing either of the bars.
- **Triple Jump:** The dog must jump over all three bars, without displacing any of the bars.
- **Broad Jump:** The dog jumps over several low, flat jumps equaling two times their jump height (for example, a dog jumping 8 inches needs to jump over a 16 inch broad jump).

Jump Heights

It is the handler's responsibility to know the appropriate jump height for their dog. Changes in jump height will not be allowed once the entry has been received, unless the Judge determines that the dog, for physical reasons, should not be jumping at the entered height. (In order to help with height determination, a video will be posted on the State 4-H website which shows the proper procedure for measuring a dog for agility.
