The wrist must be visibly free of support. Bracelets, wrist watches, wrist bands or similar items which might provide support are prohibited on the hand and arm which hold the firearm. (See Rule 3.11).*
- ii. *Ready Position – (Note: see the representation of the ready position in this (5.3) section of the NRA rule book). The competitor brings the pistol to a position where the arm points forward and down at an angle of not greater than 45 degrees from the vertical.*

b. *The competitor must stand free, without support, completely within the firing point. The pistol must be held and fired with one hand only. The wrist must be visibly free of support.*

c. *Before and during the series, including while chambering a pellet, or checking or cocking a pistol, or while waiting for a range officer to verify a malfunction, the pistol must always be kept pointing down range before returning to the READY position for the next shot, or while awaiting the command to LOAD.*

d. *In the “READY” position, the competitor’s arm must point downward at an angle of not greater than 45 degrees from the vertical, but must not be pointed at the ground within the forward edge of the firing point. The competitor’s arm must be stationary in this position while waiting 7 seconds for the appearance of the target or, when electronic scoring targets are used, for the green lights to come on, or for the range command to fire.*

i. Ready Position Violations:

1. *If the competitor raises their arm too soon, or does not lower it sufficiently they must be warned by a Jury Member, and the shot must be recorded and repeated.*
2. *The competitor must then be credited with the five (5) lowest value hits in the series.*
3. *If the fault is repeated in the same stage of five (5) shots in the Duel Fire Pistol Event, the same procedure must be applied and the competitor must be penalized by a deduction of two (2) points from their score.*

- g. *Range Commands and Procedures The Range Officer must conduct competition firing by using the commands and procedures that can be found on page 15.*
- h. *Procedure in Case of Defective Cartridge, Disabled Pistol or Malfunction –*
 - i. *If a shot has not been fired due to a malfunction and if the competitor wishes to claim a malfunction, the competitor must lower the firearm immediately, hold it in the “READY” position or keep it pointing towards the targets and inform the Range Officer of the problem by raising the free hand or by another safe signal without disturbing the other competitors.*
 - ii. *When determining the cause of a malfunction, if the external appearance of the firearm does not show an obvious reason for the malfunction, and the competitor does not claim there is a bullet stuck in the barrel, the Range Officer must pick up the pistol without interfering or touching the mechanism, point the pistol in a safe direction and pull the trigger one time only to determine whether the trigger mechanism has been released. If the pistol does not discharge, the Range Officer must complete the examination of the pistol to determine the cause of the malfunction and to decide whether or not the malfunction is allowable.*
 - iii. *If a malfunction occurs in the sighting series, it will not be counted in the competition as a malfunction. The sighting series may not be repeated. The competitor; however, may complete the sighting series by shooting at a stationary target or targets, which will be faced for this purpose for a maximum of two (2) minutes.*
 - iv. *If the Range Officer decides, after inspection of the firearm, that the competitor has an “allowable malfunction”: -The number of successful shots is recorded and the series will be completed. **WISCONSIN 4-H SHOOTING SPORTS RULES FOR SMALLBORE .22 PISTOL COMPETITIONS
INTERMEDIATE (AGES 12-14) OR SENIOR (AGES 15-19) DIVISIONS ONLY**

General Rules for Smallbore Pistol Shooting

Objectives of the 4-H Shooting Sports program include teaching safe use of rifles and pistols, introducing and developing marksmanship skills so that participants enjoy the recreational aspects of Shooting Sports and finds it rewarding and, perhaps most importantly, HAVING FUN!

Smallbore Pistol was added to the Wisconsin 4-H Shooting Sports Program in 2009. **Participants will need to be at least 12 years old and have completed a certified Hunter Education and Safety program.** Participants and their families need to take note of the following:

Per BATF regulations, all pistol shooters under the age of 18 must have in their possession a written permission statement from their parent or guardian stating their permission to possess and fire Pistols. In accordance with federal laws pertaining to youth and pistols (see Youth Safety Handgun Act), the National 4-H Shooting Sports Program prohibits the transportation of a pistol for any reason by a youth under 18 years of age. Arrangements must be made for an adult to transport all smallbore pistols.

The **Smallbore (.22) Handgun Parent/Guardian Authorization** (consent form) follows this update. The page contains two forms that will be used for the Wisconsin 4-H Shooting Sports Smallbore Pistol discipline. Both forms need to be signed, witnessed, and dated. One form needs to be given to the County or Club 4-H Shooting Sports Certified Pistol Leader to keep on file. The other form needs to be laminated and kept in the pistol case so the youth has access to it at every training session or pistol competition. **Youth will only be able to shoot the pistol at a 4-H Tournament (practice or competition) after presenting the completed form when checking in to the Tournament. We recommend keeping this form in the pistol kit being used by each youth participant. Youth will also need to present proof of completion of DNR Hunter Safety.**

Youth under the age of 18 may NOT possess a Smallbore Pistol without adult supervision. This includes driving themselves to the tournament or even walking from the parking lot into the building. Similarly, at any match, parents may not just hand the cased gun to their youth in the parking area and send them on their way to the pistol match. A parent or guardian needs to accompany the youth to and from the .22 pistol match.

EYE AND EAR PROTECTION REQUIRED You may be aware that eye protection is required for Air Pistol. For Smallbore Pistol, ear protection will also be required. Ear plugs and/or protective muffs will do. A number of pistol instructors wear both. Please visit the hardware store, a sporting goods store or the sporting goods department at a neighborhood store to get proper hearing protection. Hearing protection is usually rated in terms of how much decibel reduction they provide. A higher number gives more protection.

SMALLBORE PISTOL MATCH There will be three stages for Smallbore Pistol Match at this tournament. The stages are: Slow Fire, Timed Fire and Rapid Fire.

PISTOLS and AMMO

Participants will need to bring their own .22 Long Rifle rim fire **non-jacketed** ammunition and pistol. Semiautomatic pistols are easier to shoot with for most competitions, mostly because you don't have to thumb cock the hammer for each shot (remember, bullseye will be shot one-handed). Good semi-autos are available from Ruger, Browning, Smith & Wesson and others. Feel free to discuss your pistol choices with your instructors.
