Hunt & Cover Rules

(need 50 shells available for this event)

1. Hunt and Cover is a team event with 2 members ("hunter" person & "cover" person) standing side by side at each shooting station. Shooters may use any gauge shotgun for this class.
2. There are 50 clays thrown for this event so make sure that you have enough shells. The maximum score is 50 hits.
3. The (first person) "hunter" calls for the target and shoots (hit =1 team point), if the "hunter" misses, the (second person) "cover" **can now shoot** to break the target (hit = 1 team point and miss - loss = 0).
4. If the "hunter" breaks the target and the "cover" shoots, the hit will be recorded as a loss for the 'hunter" (0 team points).
5. IF the hunter does not shoot and the cover does it will mark as a miss
6. The "hunter" shoots first at this position per normal trap rules.
7. **To simplify, you shoot 1 round of trap where the hunter shoots first and the cover shoots only if and only if the hunter misses. You then switch positions and shoot a new round of trap the same way.**
There will be 50 clays thrown so plan for 50 shells per person. A perfect round would require 25 shells each and the worst round would require 50 shells each.
9. The highest team score will be the winner. Ties will be determined by the team who has the longest string of broken targets starting from the last clay. In the event there still is a tie, the next or second longest string of broken targets will be used and so on. If a tie still exists, a shoot off will take place determined by the range commander based on time and shooting conditions.
